

THE EXISTENCE OF LOVE + TO TAKE THE LIBERTY TO BE | since 2/2004

An Approach for a development / growth of our body, mind, soul and spirit surrounded by love and strength; Rediscovering love as a natural Value of our human existence ; Love - a space of transformation and transmission for our body, mind, soul - a human discovery there natural strength and power exist

Quotation ..." love is part of the evolution of our human nature evolution is the innermost quality of our humankind..." (OSHO p.78 / freedom - the courage of yourself to be)

Love as a feeling and word of an internal room ?

Love as a dream word, cliché, elixir of an external room ?

Love as an active and passive condition of our personal growth ?

I experience LOVE as an energetic state

This individual process of growth has always been a personal reflection for me

Love reflects as an answer to the collective subconsciousness.

I visualized as an artist love as a circle. It is formed and expressed through the body of my work, by intuition , by the natural work in progress – it floats

Love seen as a circle without beginning and end - an archetype - the state of self awareness, where a strength exist and a quiet arises.

Love as a centre for spiritual, mental and physical growth

Love as a well and an energetic stream

Love as a human right - to develop our human nature

Love is part of a liberalism and tool for an individual conscious mind

Love is rebellion and adventure in the same time

Love as an encouragement and self-assessment

Love as an answer for the chaos in this world ,

Love brings self-responsibility , Love carries the strength in itself

Love burst standardized and dogmatic barriers in us

Love exist as a natural, non-verbal language in us

Love is taken the liberty to be once with yourself

Love carries courage to find your true self

Love possess a discoverer spirit, it is a natural guidance for the daily living

Love is an inspiration and a stimulation for an active dialogue

Love seen through my eyes....Love is in us existing, Love fills us with Energy and Warmth - it has a natural transformation existing in it; It contains a Perception and a Recognition to acquire the Self-Esteem, the Respect, the Acceptance, the Integrity and the Loyalty of and for our Human Nature.

Love is an infinite < Adventure and Challenge > for personal growth.

Love seen as a Healingsystem – it exist in us , is managed by the heart between one to another. Love as an interactive valuable dialogue and a natural alliance of a living society towards one world
